Subject: RE: Would you take a look at this data list that Rayput together, please?

---

I agree – a sound approach. Of most importance would be the collection and analysis of cores from the various zone at Dewey Burdock. The geologic conditions are vastly different than our WY conditions.

That data list looks very similar to the data list proposed in our Cameco proposal!  
Best,  
Thomas

We would like to go over this list during the call next Friday, if that's OK.

Thanks
